Terminal Disclaimer

1. The terminal disclaimer filed on 08/10/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,447,885 has been reviewed and is accepted. The terminal disclaimer has been recorded.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Note that the terminal disclaimer is sufficient to overcome the double patenting rejections. The claim objections have been overcome by the present amendment. Applicants' amendment is sufficient to overcome the art rejections and sufficient to place the application in condition for allowance. None of the prior art teaches or suggests an article for fabricating large LCD having a recited structure as set forth in the claims wherein the flat plates are glass. Both Kunz (US 4,803,124) and Yoshida (US 5,187,123) disclose a method of bonding a semiconductor chip to a mounting surface. Therefore, it would not have been obvious to replace the semiconductor chip with a glass plate because to do so would destroy properties necessary for the intended utility.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
